

## WebSite Tonight

This page enables you to set up and edit 5, 10, and 20-page WebSite Tonight Web sites. Multi-page Web sites (Website Tonight) allow you to add additional content, photos, links, etc.

**Manage Web Sites**

- To Setup a New Web Site, click "Setup Site" under the type of web site you'd like to create. For instance, if you're creating a One Page Web Site, click "Setup Site" to setup the initial account settings.
- Once the initial settings are created, click "Build Web Site" to create your web site.
- You can always edit your web site once it's built, by clicking "Build Web Site".
- If you have forgotten your Web Site login or password please [click here](#).
- Traffic Facts Users: To apply, or cancel Traffic Facts on your existing website account, click "View Hosting Settings." For new accounts, you will be given the option to apply Traffic Facts when you select "Setup Site," then "Setup/Edit Hosting."
